Tools Required:
Phillips Screwdriver

Parts Included:
Cameo
FSA-10
½" Wrench
Serrated Nuts
Monitor Mounting Hardware

1. Upon opening the box that includes the cameo, there will be a smaller second box that holds the monitor arm. Attach the monitor arm to the cameo using the serrated nuts and ½" wrench as found in the hardware bag inside the smaller box. Figure 1 shows the mounting alignment. Ensure that the back side of the monitor arm is facing the handle. Adjust springs and mount monitor according to FSA-10 installation instructions found in the smaller box.

Figure 1: FSA-10 alignment on Cameo.

2. As mentioned in FSA-10 installation instructions, with rear cover detached, wire all necessary wires through the hole in the center of the FSA-10 and into the column towards the plug strip.

3. Once wiring is complete, snap the provided cable management sleeve into the column to contain all visible wires. See Figure 2.
